New Source Review newspaper advertisements for construction permit applications, June 16, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 14, June 15, or June 16, 2005. Public notices are generally published every two weeks. The previous publication of public notices was June 1-2, 2005.

## **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Standard Construction Company</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 38289</u>, <u>Germantown</u>, <u>TN 37183</u>. They seek to obtain an air contaminant permit (Division identification number: <u>35-0065-01/58257</u> for modification of an <u>Asphalt Plant</u> located at <u>4195 Ermon Road</u>, <u>Whiteville</u>, <u>TN 38075</u>. This existing operation consists of crushed rock and sand stockpiles, a continuous type asphalt mixer, and associated equipment used to produce hot-mix asphalt. Number 2 fuel oil is used for fuel. Wet suppression and a baghouse are used for pollution control. The modification is to add waste fuel oil to the permit for a fuel option. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. R. Benjamin is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, June 16, 2005.

They seek to obtain an air contaminant permit (Division identification number: 65-0031-03/58118) for modification of a Precious Metal Recovery Operation located at Hwy 62 W and Corbin Hill Road, Coalfield, TN 37719. This existing operation consists of one bank of five combustion units used to recover silver from photographic wastes. An afterburner and wet scrubber are used to control emissions of particulate matter and volatile organic compounds. The requested modification is to increase the raw material input rate for this emission source. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Morgan County News"--published once on or before Thursday, June 16, 2005.

Air Pollution Control jun1605-web.doc 1

The applicant is <u>Wilson Farms</u> with a mailing address of <u>P.O. Box 50</u>, <u>Wilder, TN 38589</u>. They seek to obtain an air contaminant permit (Division identification number: <u>71-0223-01/58222</u>) for construction of a <u>Portable Rock Crushing Operation</u> on <u>Highway 70N</u>, <u>Monterey, TN 38574</u>. This proposed operation would consist of a portable rock crusher and conveying unit used to produce crushed rock. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

For the Putnam County "Cookeville Herald-Citizen"--published once on or before Thursday, June 16, 2005.

The applicant is <u>Finishing Innovations</u>, <u>Inc.</u> with a mailing address of <u>578 Hwy 70</u>, <u>Mason</u>, <u>TN 38049</u>. They seek to obtain an air contaminant permit (Division identification number: <u>84-0100-01/58256</u>) for construction of a <u>Hard Chromium Electroplating Operation</u> at <u>the same address</u>. This proposed operation would consist of an electroplating tank and associated equipment used to deposit a film of chrome onto medical devices. An emission elimination system consisting of a tank lid with semi-perimiable membrane and HEPA filter would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Tipton County "Covington Leader"--published once on or before Thursday, June 16, 2005.

The applicant is <u>Vulcan Construction Materials</u>, <u>L.P.</u> with a mailing address of <u>P.O. Box 7</u>, <u>Knoxville</u>, <u>TN 37901</u>. They seek to obtain air contaminant permits for construction of the following proposed sources to be located at <u>379</u> Leeville Pike, Lebanon, <u>TN 37087</u>:

- (1) <u>Rock Crushing Operation</u> (Division identification number: <u>95-0222-05/58238</u>). This proposed operation would consist of crushers, screens, conveyors, feeder, pugmill, bin, stockpiles, and associated equipment used to crush and size stone. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.
- (2) <u>Generator</u> (Division identification number: <u>95-0222-06/58239</u>). This proposed operation would consist of an electric generator powered by a diesel internal combustion engine and would be used to provide power to the rock crushing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Wilson County "Lebanon Democrat"--published once on or before Thursday, June 16, 2005.
